Position Summary

Apply your interest in analytics to one of the biggest challenges of our time: healthcare. Reporting is essential to the advancement of healthcare and making the most of an electronic medical system. As a Reporting Support Engineer at Epic, you will help our customers use their data to monitor and improve how their organization is running, research various aspects of patient care, and contribute to the improvement of healthcare as a whole.

Responsibilities Include

- Design and develop custom reporting solutions for Epic
- Assist in all phases of report development, including consultation and analysis of business requirements, programming, interface design, QA, documentation, and maintenance
- Provide internal and customer support for technical reporting issues

Requirements

- Bachelor's degree or higher in math, stats, hard science, or engineering
- History of academic success demonstrated by a minimum 3.2 cumulative GPA
- Programming experience
- Willing to relocate to Madison, Wisconsin (relocation expenses are reimbursed)
- Visa sponsorship is available for qualified candidates
- Familiarity with the following is a plus: Crystal Reports, MySQL, SAP, Oracle

What We Do (Company Profile)

Improving healthcare is one of the biggest challenges of our time. For over 30 years, Epic has risen to this challenge by creating award-winning software that helps healthcare organizations provide better care and reduce costs. Our software is designed to support all the functions that orbit the patient. Our applications work in unison to dissolve the informational boundaries that create inefficient healthcare.

Sometimes referred to as the "Silent Giant", Epic has established itself as the vendor of choice for large and complex healthcare organizations. We have set records for size and scope and were again named the #1 Overall Software Vendor for 2009 by KLAS. Epic continues to be at the forefront of real-time, patient record interoperability and is leading the revolution in giving patients access to their own electronic medical records.

We're searching for smart, passionate people who want to achieve great things. You'll be in a world-class learning and working environment where you can gain the skills you need to do something extraordinary. You will work hard, collaborate with the brightest minds, and make a difference in healthcare.

Benefits

- State-of-the-art and casual work environment including offices instead of cubes, themed buildings, underground parking, a treehouse, and a working farm

- Gourmet yet inexpensive cafeteria
- Health insurance coverage starting on day one of employment. We also offer dental, vision, and life/disability coverage
- Four-week paid sabbaticals every five years
- 401(k) plan with company match
- Stock Appreciation Rights
- Learning opportunities: Go on-site to our customer organizations to learn from some of the best healthcare providers in the world and take advantage of career development classes provided on-campus and on-the-job
- Make a significant contribution that improves the health and well-being of people around the globe
