

September 30, 2011

Dear Colleague:

The Department of Applied Statistics and Operations Research at Bowling Green State University has an opening for a Tenure-Track Assistant/Associate Professor of Business Analytics, starting August 2012. For more information about the position and the department, please visit us at <http://www.business.bgsu.edu/asor/index.html>.

I would really appreciate it if you can circulate the attached position announcement among your colleagues and Ph.D. candidates. Please feel free to contact me if you have any questions.

Sincerely yours,

Arthur Yeh

POSITION OPENING ANNOUNCEMENT
DEPARTMENT OF APPLIED STATISTICS AND OPERATIONS RESEARCH
BOWLING GREEN STATE UNIVERSITY
BOWLING GREEN, OH 43403-0267

FACULTY POSITION OPEN AUGUST, 2012

Assistant/Associate Professor of Business Analytics – Tenure Track

QUALIFICATIONS

Tenure track assistant/associate professor of Business Analytics position starting August 2012. This is a new position created to support the College's strategic direction to pursue program development in business analytics and intelligence developed jointly by the Department of Applied Statistics and Operations Research and the Department of Accounting and Management Information Systems. Doctoral degree in Statistics, MIS, Management Science/Operations Research or a closely related field is required by the starting date. Candidates must have a primary research interest in developing analytic tools relevant to business and an interest in collaboration with other College of Business Administration colleagues in finding solutions to business problems. Successful candidate is expected to have a demonstrated potential for excellence in teaching and research. Teaching responsibilities will depend on the candidate's field of specialization and may include courses in Statistics, Management Science or MIS to undergraduate and graduate students in business administration as well as in applied statistics. Specific research interest and experience in areas such as data mining, business analytics and intelligence is highly desirable. More information at www.business.bgsu.edu/asor/.

RESPONSIBILITIES

Expected to teach at both graduate/undergraduate levels, and develop an active research agenda. Externally supported research/application oriented program/project development is desirable. University/professional service is also expected.

COMPENSATION

Compensation for the academic year will be competitive and includes a full benefit package.

Application must be postmarked by January 13, 2012. Send cover letter, CV, three current and original letters of recommendation, and official transcripts to:

Dr. Arthur Yeh, Chair
Department of Applied Statistics and Operations Research
Bowling Green State University
Bowling Green, OH 43403-0267

Bowling Green State University is a state-assisted residential institution with an enrollment of approximately 21,000 students located in Bowling Green, Ohio, near major business and industrial centers. At the undergraduate level, the Department of Applied Statistics and Operations Research offers a specialization in Business Analytics and Intelligence and a minor in Applied Statistics. At the graduate level, the Department offers a M.S. in Applied Statistics jointly with the Department of Mathematics and Statistics. The Department also operates the Center for Business Analytics which is actively involved in helping University faculty and graduate students with statistical and operations research problems, as well as working with external clients on statistics, operations research and business analytics related projects.

Bowling Green State University is an Affirmative Action/Equal Opportunity Employer and encourages applications from women, minorities, veterans and individuals with disabilities.
