

Position Opening: Biometrician (Statistician or Ecologist)  
Fairbanks, AK

This message has been cross posted to the following eGroups: Biometrics (BIOM) and Section on Statistics and the Environment.

-----

Applications are being accepted through 13 August for the position of assistant Regional Refuge Biometrician with the Natural Resources branch of the US Fish & Wildlife Service.

The position is located in Fairbanks, Alaska, and will work closely with the Regional Refuge Biometrician in Anchorage to oversee the statistical quality of all Refuge ecological programs and provides assistance with design, analysis, review and recommendation to the Natural Resource staff.

The position is a GS-11/12 with a salary range of \$62,682 -97,667 /year (base salary of \$52,661.00 - \$82,053.00 /year + 19.03% cost of living allowance)

Applicants may apply as either an Ecologist (GS-0408 job series) or a Statistician (GS-1530 job series).

Details on the position, benefits, application procedures and requirements are available by searching the USAJOBS.gov website for the position listing choice (below).

Pick the listing appropriate for your choice of qualifying job series and if you qualify for a federal merit promotion (i.e., are already a federal employee).
