

CAREERS AT IMAGINE SOFTWARE

OPPORTUNITIES exist at many software technology firms. But how many offer the exciting combination of personal challenge and growth derived from the experience of working with professionals at some of the world's most elite financial institutions?

Imagine's customer base consists of more than 150 major hedge funds, fund of funds, pension funds, brokerage firms and banks worldwide. The firm serves the portfolio and risk management needs of thousands of enterprise and buy-side clients in every major financial market around the world. Credit Suisse, Deutsche Bank, Goldman Sachs, UBS—these are just a few of the major financial institutions Imagine employees work and collaborate with on a daily basis, utilizing leading-edge technologies to solve complex business challenges.

A career path at Imagine represents, quite simply, one of most comprehensive opportunities to learn the complexities and nuances of the global financial markets. Every employee participates in enabling clients of Imagine Software's award-winning, cross-asset, multi-strategy system to achieve three critical objectives:

- Maximize returns and manage risk
- Achieve transparency
- Gain operational efficiencies

ABOUT IMAGINE

Founded in 1993, Imagine is headquartered in New York City with full-service offices in London, Hong Kong, and Sydney, plus development and client support facilities in Istanbul and Cleveland, Ohio. Imagine is 100% owned by its four managing partners.

Recent industry recognition has been gratifying. In 2007, Imagine won numerous #1 awards from prestigious publications such as *Risk Magazine*, *Asia Risk*, *Buy-Side Technology Magazine*, and *Alpha Magazine*. In March 2008, Imagine was selected as "Best Risk Management Software Supplier" by *The Hedge Fund Journal*.

LEARN MORE

Please visit www.derivatives.com to learn more about our company, business focus, clients, and product. We hope you'll share our excitement about building and offering one of the world's most sophisticated financial software solutions. Today's volatile financial markets only create greater demand for our award-winning product, as evidenced by record-breaking revenues in 2007.

For the right candidates, we look forward to welcoming you aboard and sharing our success!
