Smith Hanley Associates has been placing statisticians in the pharmaceutical industry for well over 20 years and the below posting is just a sample of one of our opportunities. Many other positions are available, nationwide, at various levels to include senior management.

**ENTRY TO SR. PRINCIPAL STATISTICIAN  
DISCOVERY – GENOMICS – BIOMARKER RESEARCH**

We are currently networking to help our client find candidates for two positions they have available. The focus of these positions is to provide statistical consulting and computing support for projects in drug discovery. pre-clinical and clinical biomarker research (genomics, imaging, etc.), and for biomarker, PK and immunogenicity assays used in preclinical and clinical studies.

The ideal candidate would have a PhD in Statistics or Biostatistics with a focus in the area of genomic research or biomarker research and a minimum of a strong academic record. Candidates with direct Pharmaceutical experience are also sought for more senior roles.

Both positions are located in the Midwest.
