

**Assistant Professor of Statistics/Biostatistics  
(Tenure-Track)**

The Department of Health Care Policy, Harvard Medical School, is a multidisciplinary research department with subject-matter specialists in health services research, health economics, and medical sociology. Methodological interests of the Statistics Group include hierarchical modeling, analysis of observational data, causal inference, applied Bayesian methodology, and design & analysis of surveys. We seek a PhD (Bio)Statistician with interest in these or other relevant areas. Good communication skills and the ability to work as part of a multidisciplinary team are essential. Position begins July 2011. A departmental overview is available for viewing at <http://www.hcp.med.harvard.edu>.

Send CV, copies of 3 articles if available, and 3 recommendation letters to: Statistics Faculty Search Committee, Department of Health Care Policy, Harvard Medical School, 180 Longwood Avenue, Boston, MA 02115-5899. This material may be sent any time up to December 31, 2010.

Harvard University is an Equal Opportunity/Affirmative Action Employer.
