Biostatistics Faculty Leadership Positions: Data Coordinating Center (DCC) Network Project and Biostatistics Core for the Cancer Center

The Department of Biostatistics and Epidemiology at the Perelman School of Medicine at the University of Pennsylvania seeks candidates for an Associate or Full Professor position in either the non-tenure clinician-educator track or the tenure track. Track and rank will be commensurate with experience. Applicants must have a Ph.D. or equivalent degree.

- Data Coordinating Center (DCC) network project leadership
- Biostatistics Core leadership for the Cancer Center

A demonstrated track record as the principal investigator of methodological research supported by extramural grant funding is required for the tenure track. Review of applications will begin on September 30, 2015 and will continue to be accepted after this date, until the positions are filled. The expected start date is July 2016 or later.

Candidates for the DCC leadership position should have substantial experience designing and leading large, multicenter clinical research network projects, involving clinical trials and/or cohort studies, including oversight of data management systems and operations, preparation and presentation of reports to data monitoring committees, and development and implementation of ongoing quality control procedures. They should be knowledgeable about cutting-edge statistical issues related to the design and analysis of clinical trials and other longitudinal studies, such as adaptive designs, methods for missing data, analytical procedures for causal inference, and statistical monitoring approaches.

Candidates are expected to have a strong commitment to teaching and must demonstrate outstanding research productivity. Primary teaching responsibilities include participation in Penn's Center for Clinical Epidemiology and Biostatistics academic programs.

The Graduate Group in Epidemiology and Biostatistics, jointly with the Department of Statistics in the Wharton School, offers degree programs leading to both the Doctor of Philosophy (PhD) and Master of Science (MS) in Biostatistics.

The University of Pennsylvania, founded by Benjamin Franklin, is a world-class research institution, located near the heart of Philadelphia. All of Penn's 12 schools are located within walking distance of one another. The Penn Perelman School of Medicine is one of the top ranked medical schools in NIH funding.

We seek candidates who embrace and reflect diversity in the broadest sense. The University of Pennsylvania is an affirmative action/equal opportunity employer. Qualified applicants should send a cover letter indicating the specific position to which they are applying, curriculum vitae, three letters of reference, and a statement of research interests.

We seek candidates who embrace and reflect diversity in the broadest sense.

The University of Pennsylvania is an EOE. Minorities/Women/Individuals with disabilities/Protected Veterans are encouraged to apply.
