

Postdoctoral Associate Positions

Postdoctoral Associate positions are available in the Department of Epidemiology and Public Health, Yale University School of Medicine. This position is supported by a project on genetic study of preterm birth. The successful candidate will join a multi-center research network to develop statistical methods and software for genetic analyses of complex diseases, and to analyze the data generated by our research network. The candidate should have a doctoral degree in biostatistics, computer sciences, or a related field, such as bioinformatics and genetic epidemiology. Interested applicants should send their curriculum vitae and at least two reference letters to: Dr. Heping Zhang, Department of Epidemiology and Public Health, Yale University School of Medicine, 60 College Street, New Haven, CT 06520-8034. Email: Heping.Zhang@yale.edu.

The University is committed to basing judgments concerning the admission, education, and employment of individuals upon their qualifications and abilities and affirmatively seeks to attract to its faculty, staff, and student body qualified persons of diverse backgrounds. In accordance with this policy and as delineated by federal and Connecticut law, Yale does not discriminate in admissions, educational programs, or employment against any individual on account of that individual's sex, race, color, religion, age, disability, status as a special disabled veteran, veteran of the Vietnam era or other covered veteran, or national or ethnic origin; nor does Yale discriminate on the basis of sexual orientation or gender identity or expression.
