

My name is Avy Gonzalez and I am the Recruitment Director at Tutor.com. We are currently gearing up for the Fall 2010/Spring 2011 academic year and have several positions open for Math and Science tutors in your area. Tutoring with our service actually takes place online so tutors can tutor from the comfort of their home or dorm. Our service is available 24 hours a day/7 days a week which means we provide tutors with very flexible scheduling. These are also paid positions which means that not only will tutors make a difference in the lives of students all across the country, they will also make some extra income at the same time. Our service is on demand so it helps tutors to keep their basic skills sharp in their subject areas in order to properly guide students and bring sessions to an educationally sound close.

Tutor.com was created in 1998, is based in NY but works with over 1,800 libraries and schools throughout the country as well as military families. We have over 2,000 tutors who are also located all over the country in various disciplines and fields. For more information and access to our online application, please direct folks to www.tutor.com/apply

Attached is a customizable flyer that you are more than welcome to post or distribute or you can forward my email and I would be more than happy to answer any questions folks may have. If applicants place your department and school on the application as their referral source when applying, then we can provide you with reports with how many applicants became tutors.

Thank you for your attention.

Kind Regards,

Avy Gonzalez
