Position Description: Instructor of Statistics

This is a 9-month renewable position requiring a master’s degree in statistics and evidence of instructional excellence. Responsibilities are to teach three elementary statistics classes per major semester including the newly-developed STAT 206, Elementary Statistics for Business. Some of these classes may be large (up to 200 students) sections taught with the support of graduate instructional assistants. Responsibilities include serving as a course coordinator for one or more elementary statistics courses, supervising graduate students in their teaching responsibility, and other service activities related to elementary statistics instruction and coordination. Familiarity with classroom technology and on-line course management systems would be helpful.

The University of South Carolina is an affirmative action, equal opportunity employer. Minorities and women are encouraged to apply. The University of South Carolina does not discriminate in educational or employment opportunities or decisions for qualified persons on the basis of race, color, religion, sex, national origin, age, disability, sexual orientation, or veteran status.
