

Yale University Statistics Department  
Open Position  
Assistant Professor of Statistics

The Yale University Department of Statistics invites applications for an assistant professor appointment beginning July 1, 2010. The Department seeks excellence in the theory and practice of statistics with a significant data-driven component in research and teaching activities. Abundant interdisciplinary and collaborative opportunities exist with faculty in the social sciences, physical sciences and engineering, computer science, biological sciences, and medicine as well as through participation in the Yale Probabilistic Networks Group, programs in Computational Biology and Bioinformatics, and Applied Mathematics. The Department encourages excellence in teaching, and faculty members teach a broad range of courses at both graduate and undergraduate levels. More information can be found at <http://www.stat.yale.edu>.

Yale University is an affirmative action/equal opportunity employer. The University greatly values diversity among its faculty, students, and staff and strongly encourages applications from women and under-represented minorities.

Each applicant should send a letter of application, curriculum vita, statement of research interests, and statement of teaching interests by email to [patricia.wooding@yale.edu](mailto:patricia.wooding@yale.edu) or by regular mail to Patricia Wooding; Statistics Department; Box 208290; New Haven, CT 06520-8290. Applicants should also arrange for three letters of reference to be sent. Evaluation of applications will begin December 1, 2009, and the position will remain open until filled.
