Associate Chair

Dear Department Head:

The Collaborative Studies Coordinating Center in the Department of Biostatistics at the University of North Carolina at Chapel Hill is seeking applications for one research track faculty position beginning in Fall 2011. Appointment will be in the Department of Biostatistics at UNC's Gillings School of Global Public Health. Applicants are sought at the Research Assistant, Associate, or Professor level, depending on professional experience and accomplishments. Applicants should have broad research and teaching interests, the potential to direct multi-center clinical trials and epidemiological studies, and the ability to engage in collaborative research with investigators at UNC-CH and other universities and research centers.

We would appreciate your assistance in bringing this notice to the attention of qualified candidates or to others who may have suggestions about possible candidates.

Thank you for your assistance in this matter.

Sincerely,

David Couper
Research Associate Professor
Search Committee Chair

Faculty Position in the Collaborative Studies Coordinating Center Department of Biostatistics

The Collaborative Studies Coordinating Center (CSCC) in the Department of Biostatistics at The University of North Carolina at Chapel Hill is seeking applications for a Research Track faculty position beginning in Fall, 2011. The faculty appointment will be in Biostatistics in UNC's Gillings School of Global Public Health. Applicants are sought at the Research Assistant, Research Associate, or Research Professor levels. A doctoral degree in Statistics, Biostatistics, or equivalent is required. Applicants should have broad research and teaching interests, the potential to direct multi-center clinical trials and epidemiological studies, and the ability to engage in collaborative research with investigators at UNC-CH and other universities and research centers. Preference will be given to candidates with at least five years of experience directing applied research projects in an academic setting. Founded in 1971, the CSCC is the longest-running, NIH-funded Coordinating Center with a portfolio of studies spanning various disease areas. The University of North Carolina is among the nation's top public research universities, with dynamic programs in biostatistics, epidemiology, statistical genetics, bioinformatics, and medicine. This position will remain open until filled.

To apply, use the electronic submission website at <http://jobs.unc.edu/2501109> and upload PDF versions of your CV, cover letter, and research and teaching statements. Candidates must also arrange for three letters of recommendation to arrive via email at bseagrov@bios.unc.edu and subsequently in hard copy to:
