Hi,

I would be extremely grateful if you could forward this opportunity on to **masters, PhDs, and postdocs** in your department or to post this on your announcement board.

Program: The Data Incubator is an intensive 8 week fellowship that prepares masters students, PhDs, and postdocs in STEM and social science fields seeking industry careers as data scientists. The program is free for Fellows and supported by sponsorships from hundreds of employers across multiple industries. In response to the overwhelming interest in our earlier sessions, we will be holding another fellowship.

Who Should Apply: Anyone who has already obtained a masters or PhD degree or who is within one year of graduating with a masters or PhD is welcome to apply. Applications from international students are welcome. Everyone else is encouraged to [sign-up for a future session](#).

- Boston
- Washington, DC.

Dates: All sections will be from 2019-04-01 to 2019-05-24.
