

Applied Nonparametric Statistics Spring 2019

Lecture: Tuesday, Thursday 2:00 – 3:15, OSB 108

Instructor: Eric Chicken, OSB 210 A
Office hours: TBD

Teaching Assistant: Sutanoy Dasgupta, OSB 104 C, sd14u@my.fsu.edu
Office hours: Tuesday 11:30 – 12:30; Wednesday 12:30 – 1:30; Thursday 3:30 – 4:30

Text: *Nonparametric Statistical Methods (3rd edition)*, Hollander, Wolfe and Me, 2014.

Goal of Course: Students will be able to determine which nonparametric techniques are applicable in various situations; appreciate advantages of nonparametric statistics over parametric methods; become familiar with the use of software that applies nonparametric methods.

Course topics: The material covered may include, but is not limited to,

- Dichotomous data
- Location and scale, one- and two-sample
- Location, more than two samples, one and two factors
- Independence
- Regression and smoothing

Exams: There will be four equally weighted exams.

Homework: There will be regular homework assignments. These assignments will reinforce lecture and prepare you for the exams.

Course Website: <http://campus.fsu.edu>

Grades: Your course grade is based on the exams. Final grades are assigned based on your performance on these exams. Your grades are maintained on Blackboard. There will be no extra work available to enhance your grade, so put in the appropriate effort on the assigned homework.

Software: I will use R in the classroom. No familiarity with this package is necessary. Instructions on its use and how to obtain it will be provided in class.

Class Compartment: Attendance is not part of your grade, but students who attend class must be attentive and courteous to others in the classroom. Do not use cell phones or laptops during class. Do not read non-course material during class. Do not grade or work on homework during class. If you attend class, do not come late, leave early, or get up and exit class for a period of time. See me if there are specific issues with this.

University Attendance Policy: Excused absences include documented illness, deaths in the family and other documented crises, call to active military duty or jury duty, religious holy days, and official University activities. These absences will be accommodated in a way that does not arbitrarily penalize students who have a valid excuse. Consideration will also be given to students whose dependent children experience serious illness.

Academic Honor Policy: The Florida State University Academic Honor Policy outlines the University's expectations for the integrity of students' academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process. Students are responsible for reading the Academic Honor Policy and for living up to their pledge to "...be honest and truthful and...[to] strive for personal and institutional integrity at Florida State University." □ (Florida State University Academic Honor Policy, found at <http://fda.fsu.edu/Academics/Academic-Honor-Policy>)

Americans With Disabilities Act: Students with disabilities needing academic accommodation should:

- (1) register with and provide documentation to the Student Disability Resource Center; and
- (2) bring a letter to the instructor indicating the need for accommodation and what type.

Please note that instructors are not allowed to provide classroom accommodation to a student until appropriate verification from the Student Disability Resource Center has been provided.

This syllabus and other class materials are available in alternative format upon request.
