

DEPARTMENT OF BIOSTATISTICS AND EPIDEMIOLOGY
Hudson College of Public Health
University of Oklahoma Health Sciences Center

POSITION DESCRIPTION – RESEARCH ASSISTANT PROFESSOR IN BIOSTATISTICS

POSITION: Non-tenure Track Position in Biostatistics

SETTING: Department of Biostatistics and Epidemiology, one of four departments located within the nationally accredited Hudson College of Public Health, University of Oklahoma Health Sciences Center (OUHSC), Oklahoma City, Oklahoma

RANK AND SALARY: Research Assistant Professor, salary is negotiable and will be based on experience and credentials.

RESPONSIBILITIES:

Responsibilities of a biostatistician within the Department of Biostatistics and Epidemiology include:

1. Conducting collaborative public health, epidemiological, or biomedical research and developing allied biostatistical methodologies. Providing investigators with training in research design and data analysis, as well as statistical consultation and collaborative research support, through the department's Biostatistics and Epidemiology Research Design and Analysis Center (BSE-RDAC); Stephenson Cancer Center Biostatistics and Research Design Shared Resource (SCC-BRD SR); the Tobacco Settlement Endowment Trust (TSET) Health Promotion Research Center (HPRC); and through contracts with various academic departments on the OUHSC campus.
2. Teaching undergraduate- and graduate-level courses in biostatistics, mentoring MPH, MS, and PhD students, and working with other faculty in developing and maintaining interdisciplinary graduate programs through planning, team teaching, and collaborative research.
3. Participating in faculty governance and oversight through committee membership in the Department, College and University. Engaging in service to the public and to professional associations.

QUALIFICATIONS:

Candidates must have a doctoral degree at the time of appointment in biostatistics, statistics, or related field and 12 months experience in conducting collaborative research gained during pre- or post-doc training or previous employment. Teaching experience at the undergraduate and graduate level is desirable. Good oral and written communication skills are required. Candidates with biostatistical expertise in all areas are encouraged to apply.

APPLICATION DEADLINE:

Review of candidates will begin immediately. Applications will be accepted until the position is filled.

APPLICATIONS: Email applications, including a letter outlining research and teaching interests, complete curriculum vitae, unofficial transcripts of their degree, a preferred address for confidential correspondence, and the names and contact information of three references in a single PDF document to:
