

Finexio

Data Analytics Intern

Maitland, Florida

DESCRIPTION

Who we are:

Finexio simplifies accounts payable payments by eliminating all friction in payment delivery and supplier payment acceptance. Finexio's comprehensive Accounts Payable "Payments as a Service" solution leverages proprietary analytics and robotic process automation to drive maximum conversion rates of suppliers to electronic payments. Finexio's intelligent business to business payment network identifies, delivers, and supports multiple forms of payment, generating revenue and cost savings for Accounts Payable departments while offering complete transparency and control of the payment process. To learn more, visit Finexio's website at <https://finexio.com>.

Opportunity:

We are seeking a motivated data analytics intern who is ready to apply knowledge of business practices and processes in a fast-paced, real-world environment. The intern will assist in managing numerous data sources, extracting and analyzing data from those sources, and making recommendations to improve effectiveness and efficiency. This will be a valuable experience for any student pursuing a career working heavily with integrated data resources.

REQUIREMENTS

- Statistics or related quantitative major preferred, but not required
- Excellent critical thinking and problem-solving skills
- Detail-oriented with strong organizational skills
- Experience with Microsoft Office and Excel. Higher priority to those familiar with Index Match and similar formulas

Preferences:

- Personal exposure to Salesforce and SFDC platform highly preferred
- Personal Experience with web-based data integration services like Zapier or Integromat
- Experience or study with SAS, R, Python and similar environments for analytical projects preferred
- Exposure to Heroku, AWS and similar hosting platforms helpful
