

Sports Information Intern: Stats And Data Researcher

Position Overview

Top Rank Marketing is seeking a statistics, sports information and data researcher to come on board. This role will require a maximum of 15 hours a week curating original sports betting data and information to create news story ideas, page updates, and social media posts. You will need knowledge of sports and a basic understanding of sports betting. Willingness to learn and the ability to collect data and analyze the information is a must.

Responsibilities

- Provide pre-game reports of scouting trends
- Manage statistical data for main sports
- Analyze data to create unique trends, stats, storylines, notes
- Support writers and editors with stats, and information
- Work with the editor to come up with news ideas

Preferred Qualifications

- Comfortable Using Microsoft Excel
- Knowledgeable in sports/sports betting
- Knowledgeable of sports statistics both historical and present-day
- Ability to work in team environment

How To Apply

Send a resume and cover letter to our lead editor, Michael Molter (Michael.M.Toprank@gmail.com), with the subject line "TRM Sports Info/Data Researcher Intern."

Company Overview

Top Rank Marketing is a sports betting media outlet that covers all sports. We produce original sports betting content across different websites focused on sports betting odds or the legality of sports betting across the United States.
