

The Clemson School of Mathematical & Statistical Sciences (SMSS) seeks to fill an SMSS Postdoctoral position in Statistics or Operations Research, starting in the Fall 2020 semester. This is a 9 month position (August 15-May 15) with job duties consisting of teaching two courses per semester, conducting research, and light service duties. The appointment is initially for one year but is renewable for two additional years provided a satisfactory job performance. The research area is open to any area of Statistics and/or Operations Research that is currently an active research area in the SMSS. Applicants must indicate in their cover letter which faculty their research overlaps with and who could serve as their research mentor.

Applications must include a cover letter, curriculum vitae, unofficial transcript, research statement, teaching statement, and four letters of reference with at least one addressing the applicant's teaching. Applications must be submitted through the following INTERFOLIO URL: <http://apply.interfolio.com/75455> Applications will be accepted until the positions have been filled, but applications received before April 10, 2020 will receive full consideration.

The SMSS contains two divisions: Mathematics and Statistics & Operations Research, and includes the areas of algebra and discrete mathematics, data science, computational mathematics, operations research, probability and mathematical statistics, and pure and applied analysis. The school offers the full range of Baccalaureate, Master's, and Doctoral degrees. For further information regarding the school, its research areas and programs, please visit the web site <http://www.math.clemson.edu>.

Clemson University has the highest Carnegie research designation (Very High, R1), and recently completed its Clemson Forward plan with strategic focus on advancing our doctoral programs and strengthening our research and scholarly impact while still preserving the outstanding signature undergraduate experience that is at the heart of Clemson. The Clemson Forward plan directed the building of a new world-class College of Science that harnesses the disciplines of Biological Sciences, Chemistry, Genetics and Biochemistry, Mathematical and Statistical Sciences, and Physics & Astronomy to solve tomorrow's greatest challenges. Clemson Forward has at its core the mission of inclusive excellence in our students and faculty that will help Clemson ascend to a top 20 public university and a model for the 21st Century land grant university.

Moreover, the University, the College of Science, and the School of Mathematical and Statistical Sciences are committed to building a community of inclusive excellence, where faculty scholars are dedicated to working and teaching in a multi-cultural environment (<http://www.clemson.edu/inclusion/>) We are particularly interested in receiving applications from women, underrepresented minorities, and from those who have experience and/or a commitment toward mentoring students from diverse backgrounds, as well as those who have demonstrated a commitment to understanding the challenges in promoting diversity and inclusion. In addition, the college is supportive of the needs of dual career couples.

South Carolina's highest-ranked national university is located at the foot of the Blue Ridge Mountains and surrounded by Lake Hartwell and the Clemson Experimental Forest. A top-25 public university with a reputation for excellence, Clemson University provides a hands-on education — in the lab, in the

classroom and in the field. Academic programs lay the groundwork for innovative research, and real-world experiences carry forward to rewarding careers. This strikingly beautiful campus enjoys a temperate and pleasant climate. We welcome applications and nominations of outstanding scholar-educators to come join the Clemson Family.

The College of Science advances the life, physical, and mathematical sciences as it mobilizes curiosity-driven faculty and students through innovative academic programs and research, including transdisciplinary research at the intersection of many fields.

Clemson University is an AA/EEO employer and does not discriminate against any person or group on the basis of age, color, disability, gender, pregnancy, national origin, race, religion, sexual orientation, veteran status or genetic information.
