

Statistics Social & Deep Learning Introduction

Presented by the FSU American Statistical Association Student Chapter

Learn about Deep Learning

Deep Learning Neural Network

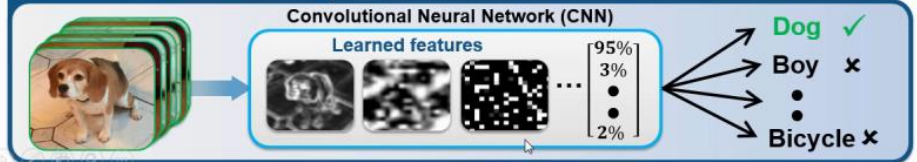

Deep Learning

Deep learning is a **machine learning** technique that can learn **useful representations or features** directly from **images, text and sound**

Traditional Machine Learning approach

Deep Learning approach

Food & Food for Thought

Join us for the club's first Spring meeting as we kick off another exciting lineup of intellectually stimulating events. We will begin with pizza and snacks, and then move on to a presentation featuring FSU's own Nathan Crock, a PhD candidate at the Department of Scientific Computing. Mr. Crock works in the Visualization Lab and also works for the Max Planck Florida Institute for Neuroscience.

When: Thursday, February 1st,
12:30 PM to 1:30 PM

Where: Oceanography/Statistics
Building (OSB) #215,
117 N Woodward Ave,
Florida State University,
Tallahassee, Florida
