

THE UNIVERSITY of NORTH CAROLINA
GREENSBORO

Department of
Mathematics & Statistics

Assistant Professor in Statistics

The University of North Carolina at Greensboro (UNCG), Department of Mathematics and Statistics seeks applications for a tenure-track Assistant Professor position in Statistics with Specialization in High Dimensional Data Analysis. The preferred start date is August 1, 2018.

Candidates must have or anticipate a Ph.D. in Statistics or a closely related field by August 1, 2018. Successful applicants will be expected to maintain a vigorous research program and excel in teaching. They are also expected to seek external research funding, contribute to the interdisciplinary mission and statistical consulting at UNCG, and educate a diverse group of undergraduate and graduate students from various backgrounds.

Application materials should be submitted electronically at <http://jobsearch.uncg.edu> and by clicking on "Faculty" and going to position #998940, alternately go directly <https://jobsearch.uncg.edu/postings/9027>. Review of applications will begin on January 1, 2018 and will continue until the position is filled.

UNCG is a Minority Serving Institution, with an undergraduate student body consisting of 28% African Americans and 8% Hispanic or Latino Americans. UNCG and the Mathematics and Statistics Department foster an environment of collaboration across departments and schools and support community-engaged research. UNCG is proud of the diversity of its student body and we seek to attract an equally diverse applicant pool for this position. UNCG is located in a metropolitan area of more than 1.6 million in the Piedmont region of North Carolina, between the Atlantic Ocean and the Appalachian Mountains. UNCG is an EOE/Affirmation Action/M/F/D/V employer and are strongly committed to increasing faculty diversity.
